REPORT

Explore India — Tourism & Heritage Website

Introduction

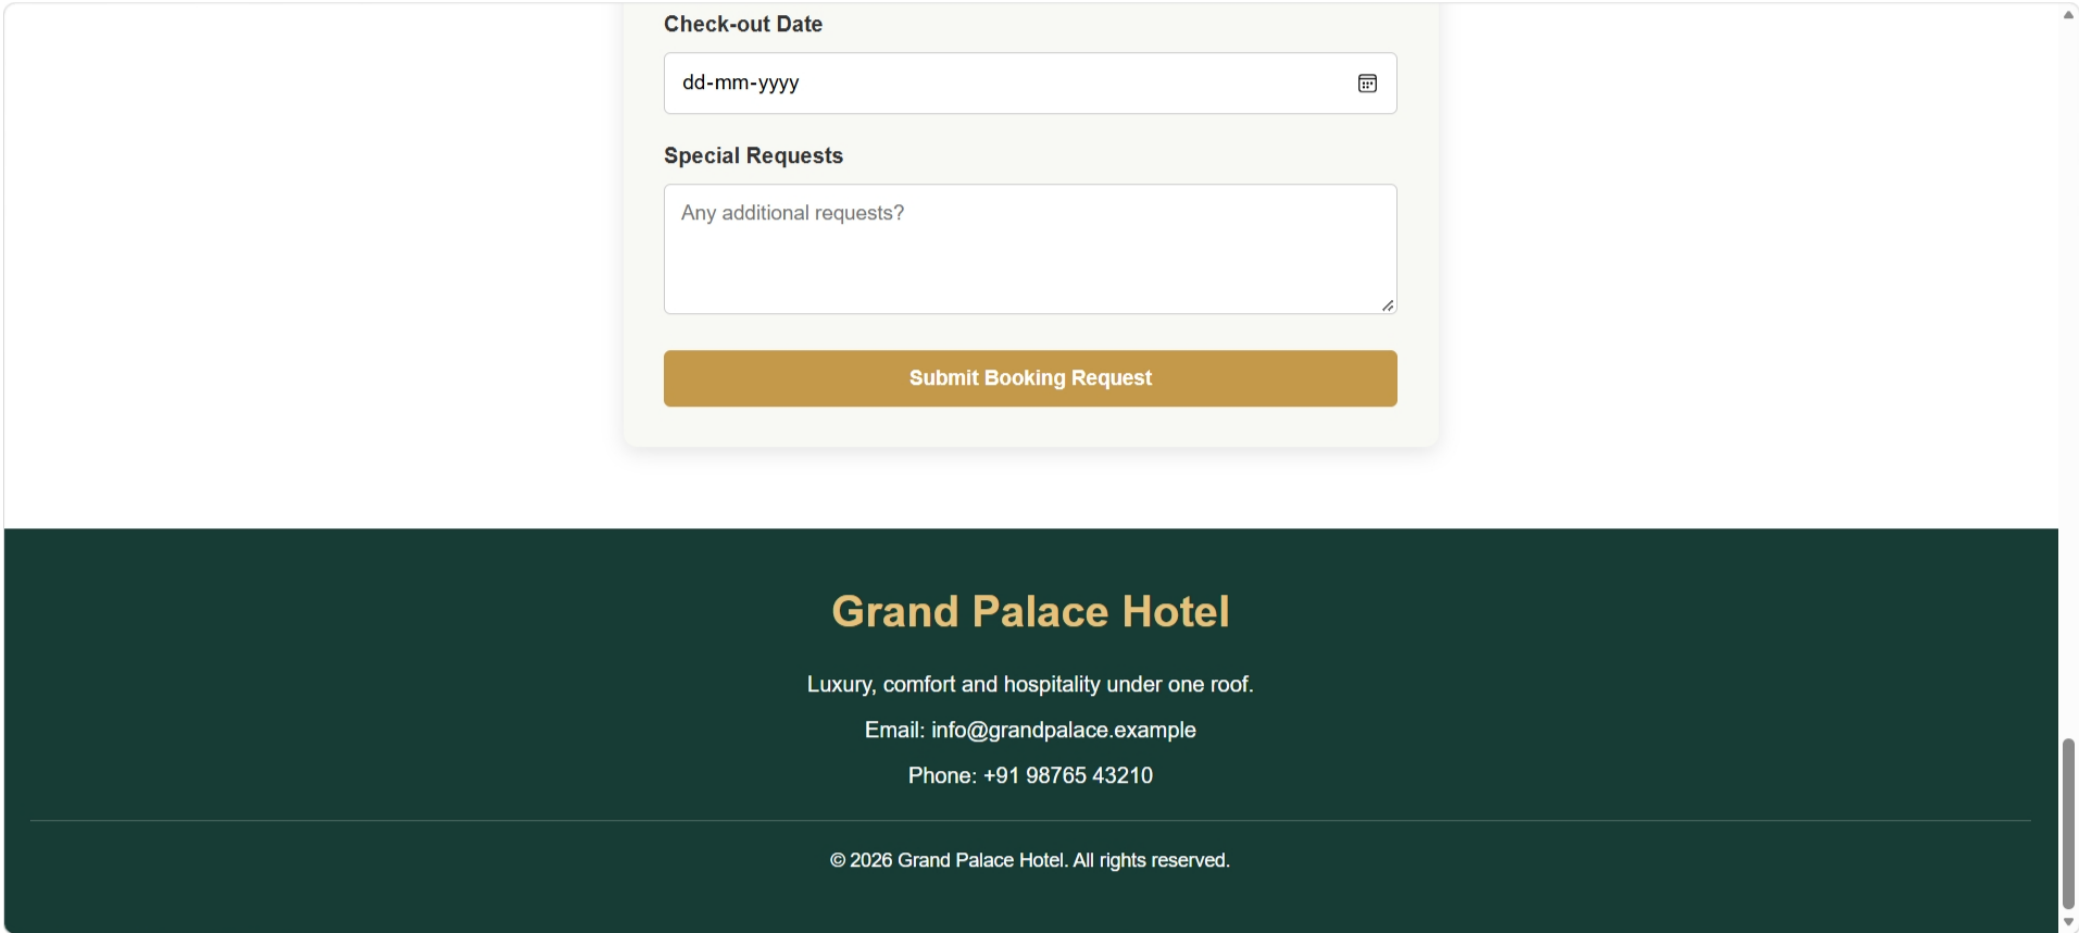

This report consolidates the supplied website screenshots into one document. The Explore India website presents Indian travel destinations, historical monuments, cultural festivals, regional cuisine and a travel gallery. It also includes a travel enquiry form, while the accompanying hotel page shows a booking-request form. The design uses a dark green navigation/footer theme, warm orange accents, destination imagery and card-based sections to make the content easy to browse.

Purpose

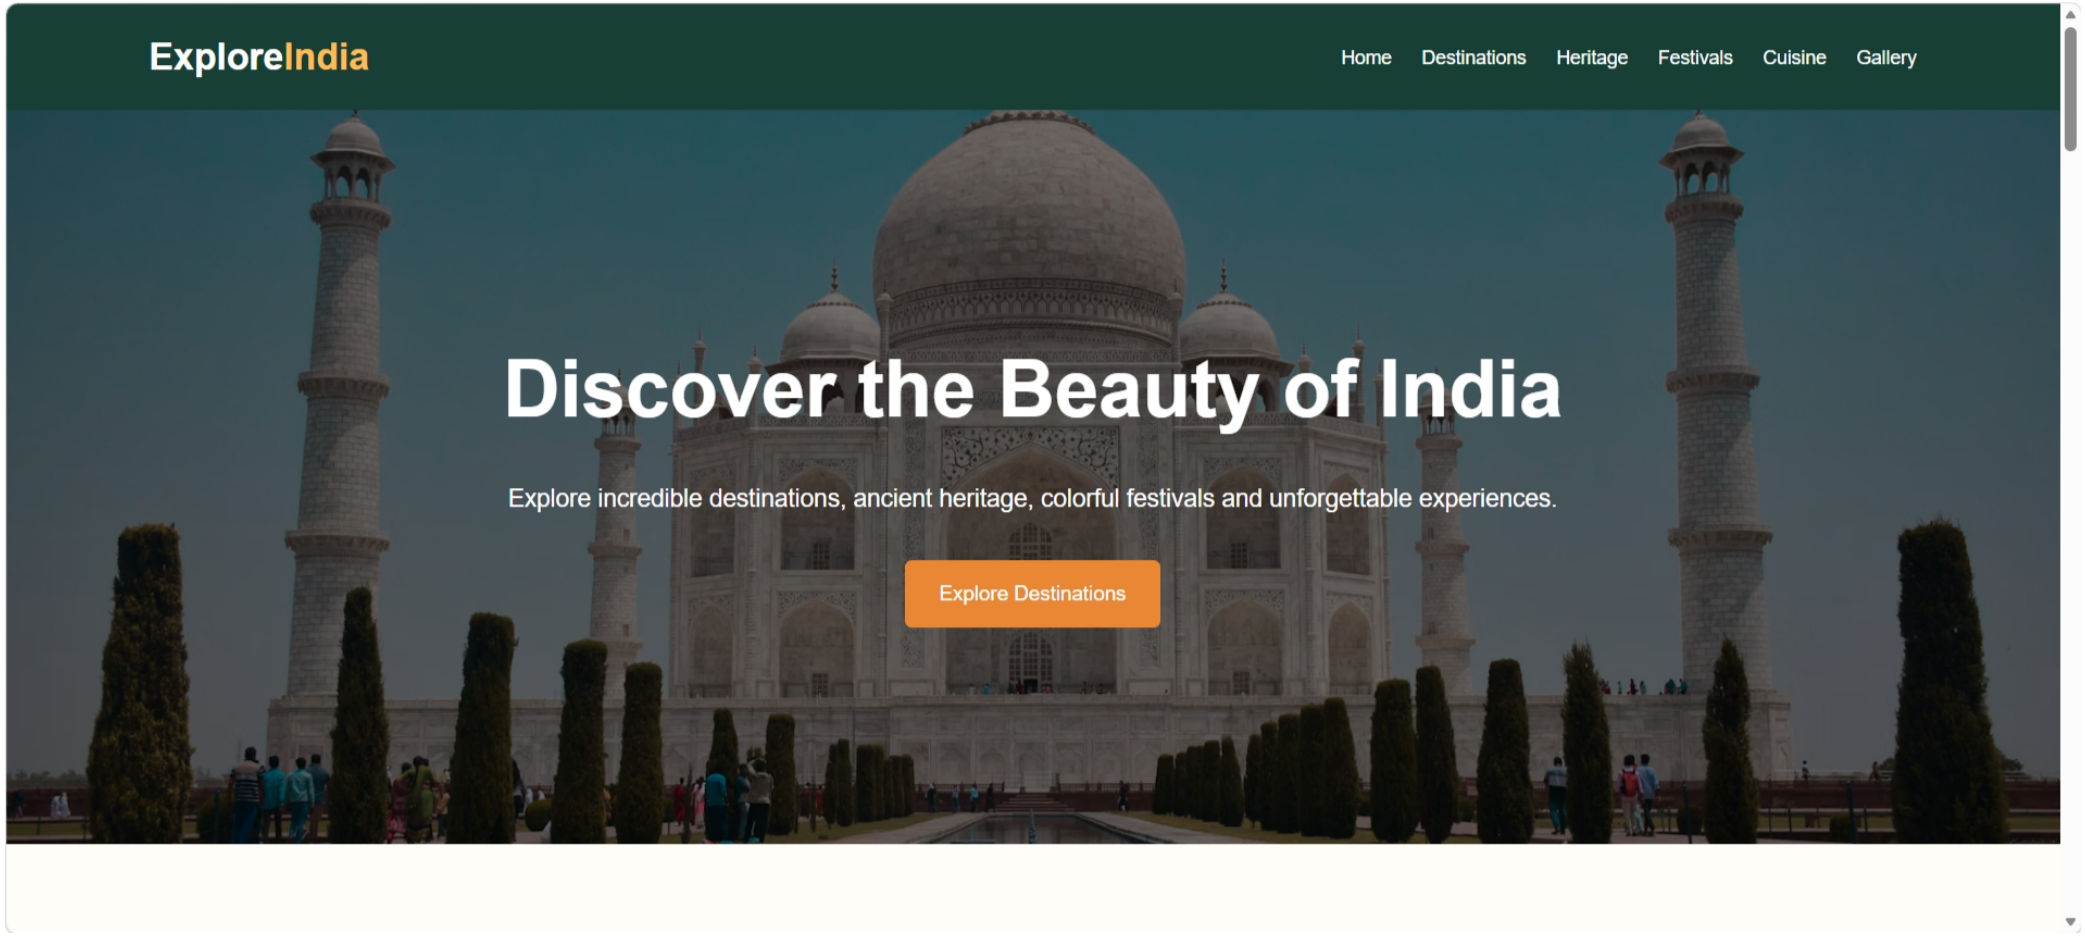

The screenshots provide a visual record of the page layout and major features. The code example at the end is a compact starter template based on the visible design; it is not a recovered copy of the original source code.

Included screenshots: 10

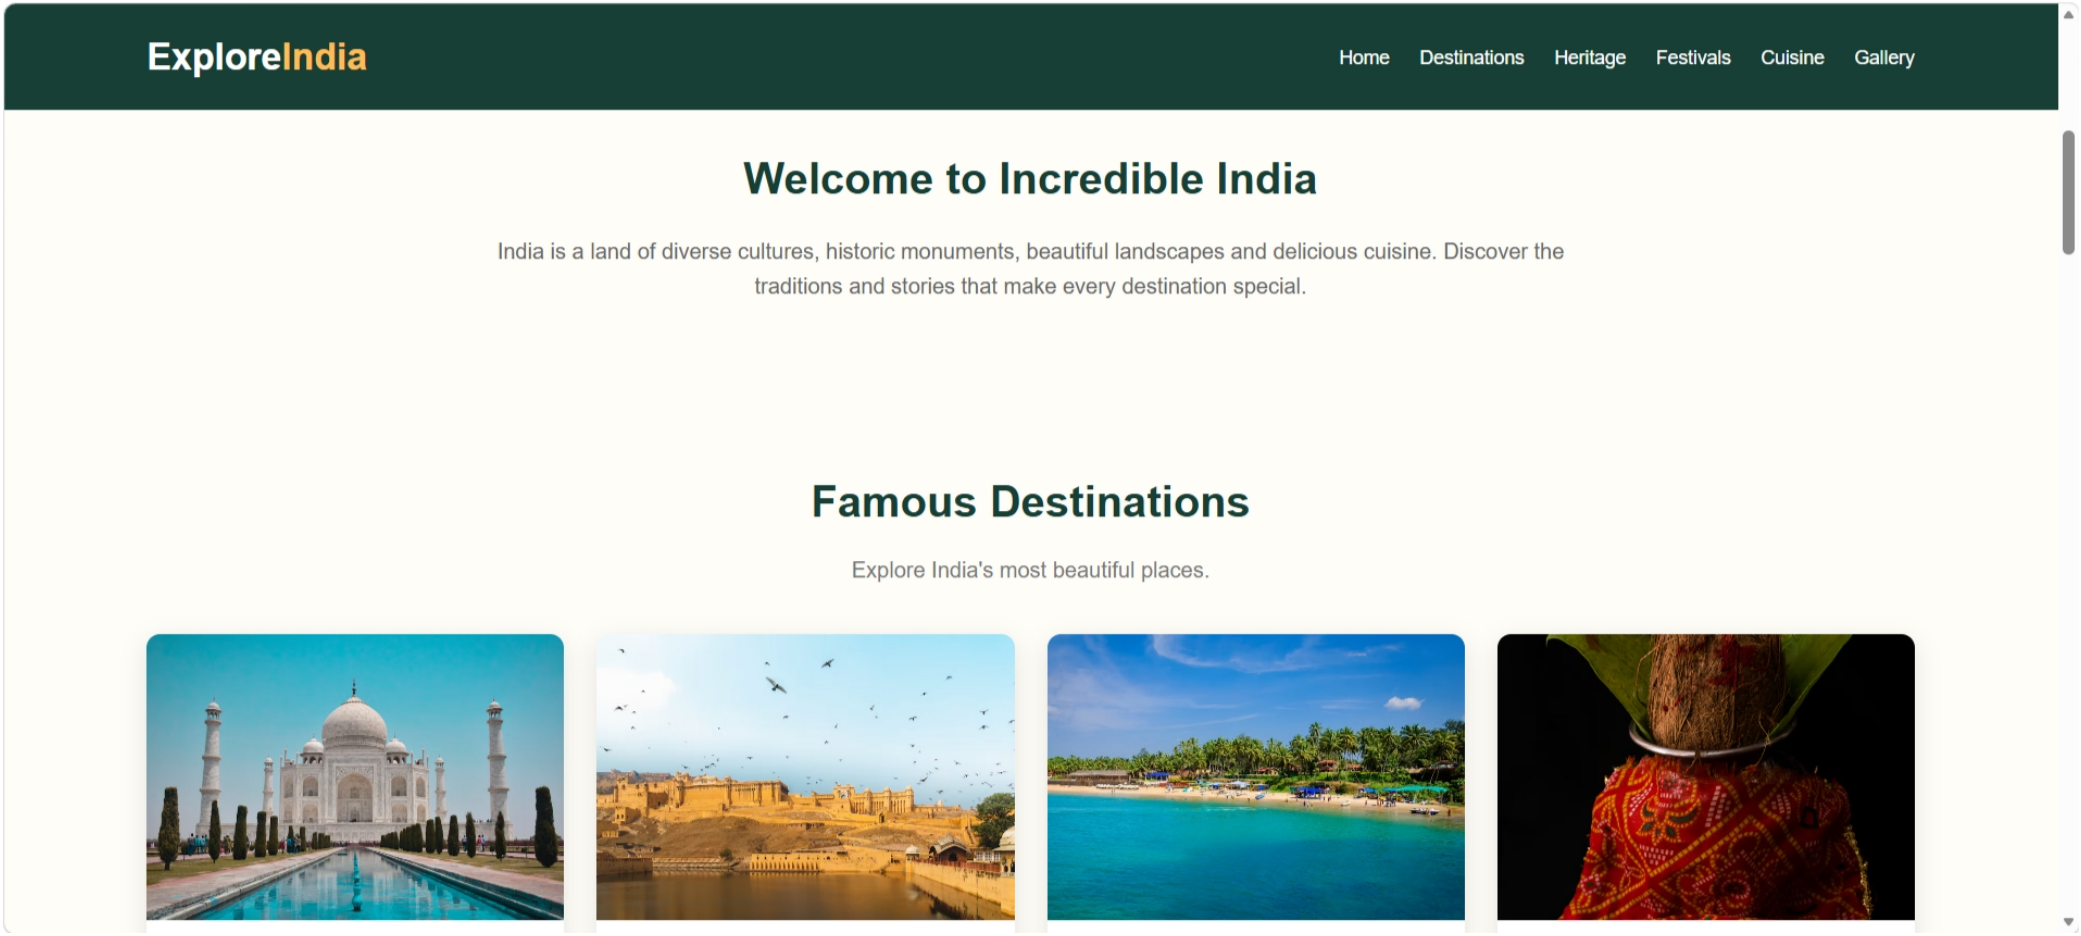

Screenshot 1 — Explore India homepage and destination hero

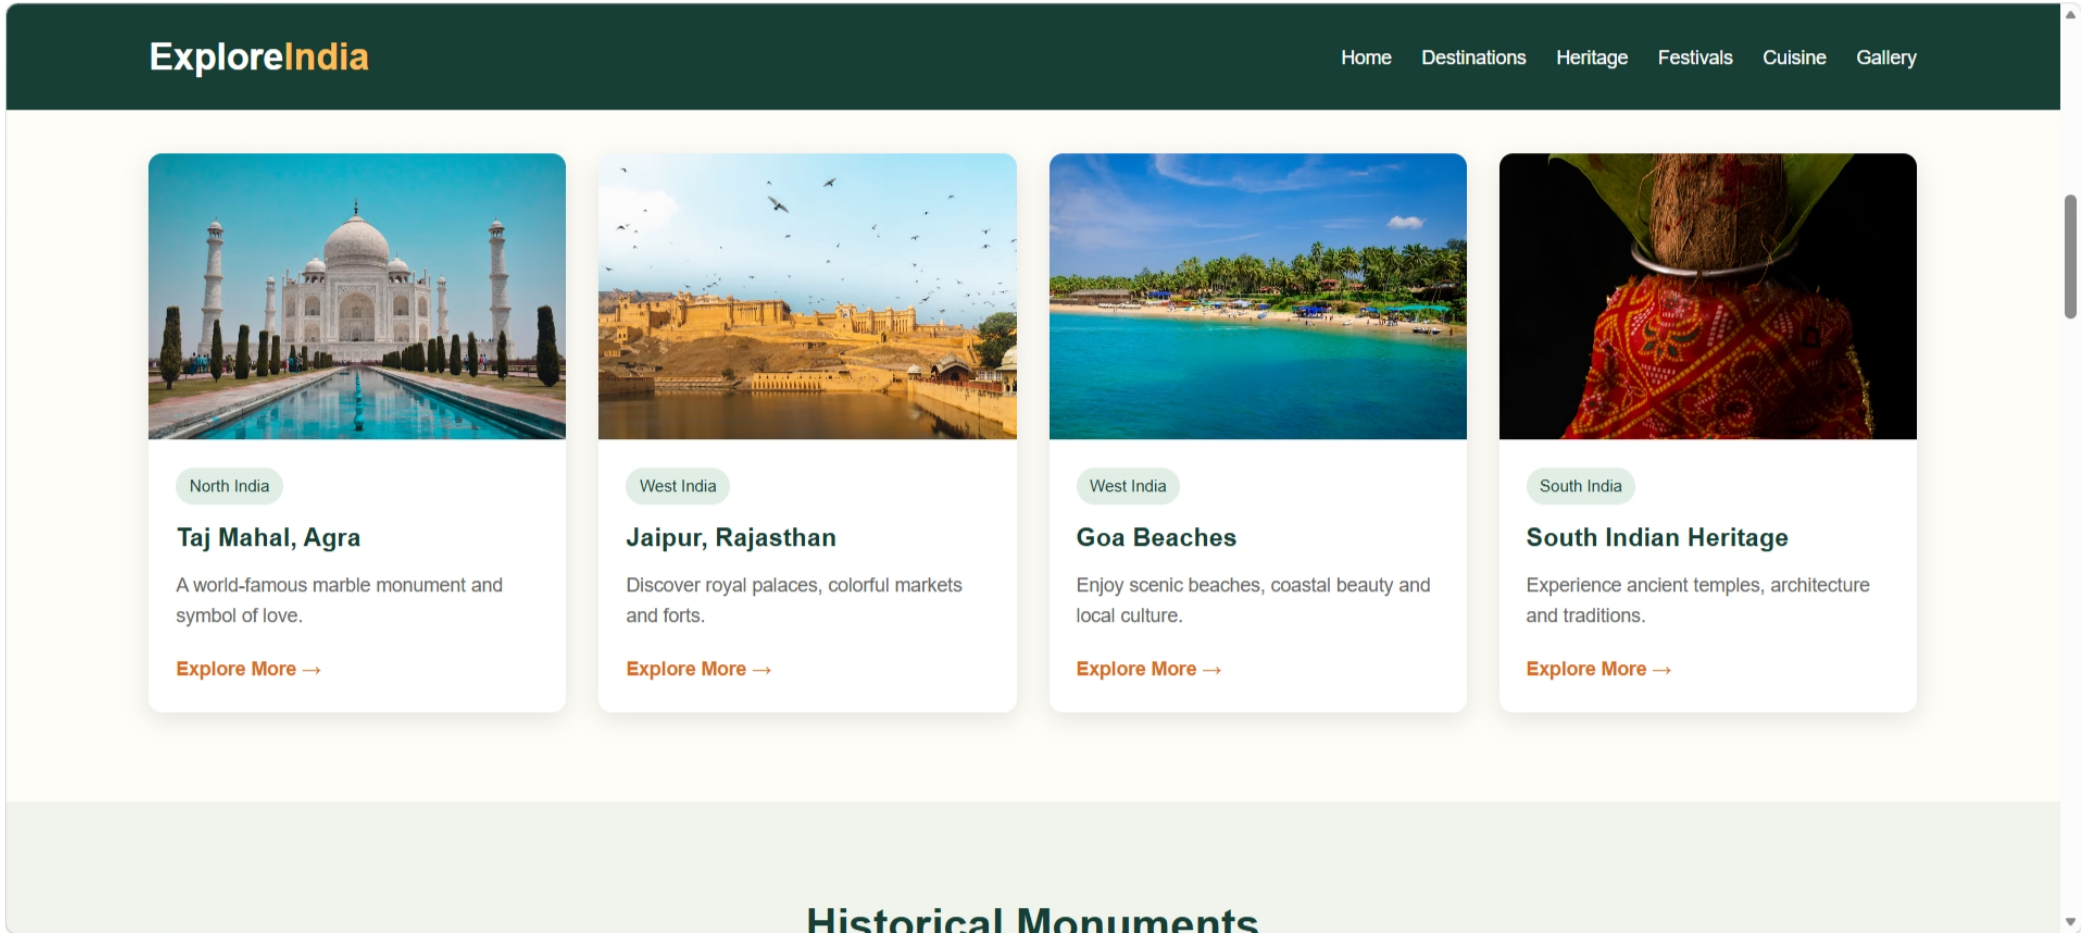

Screenshot 2 — Introduction and destination cards

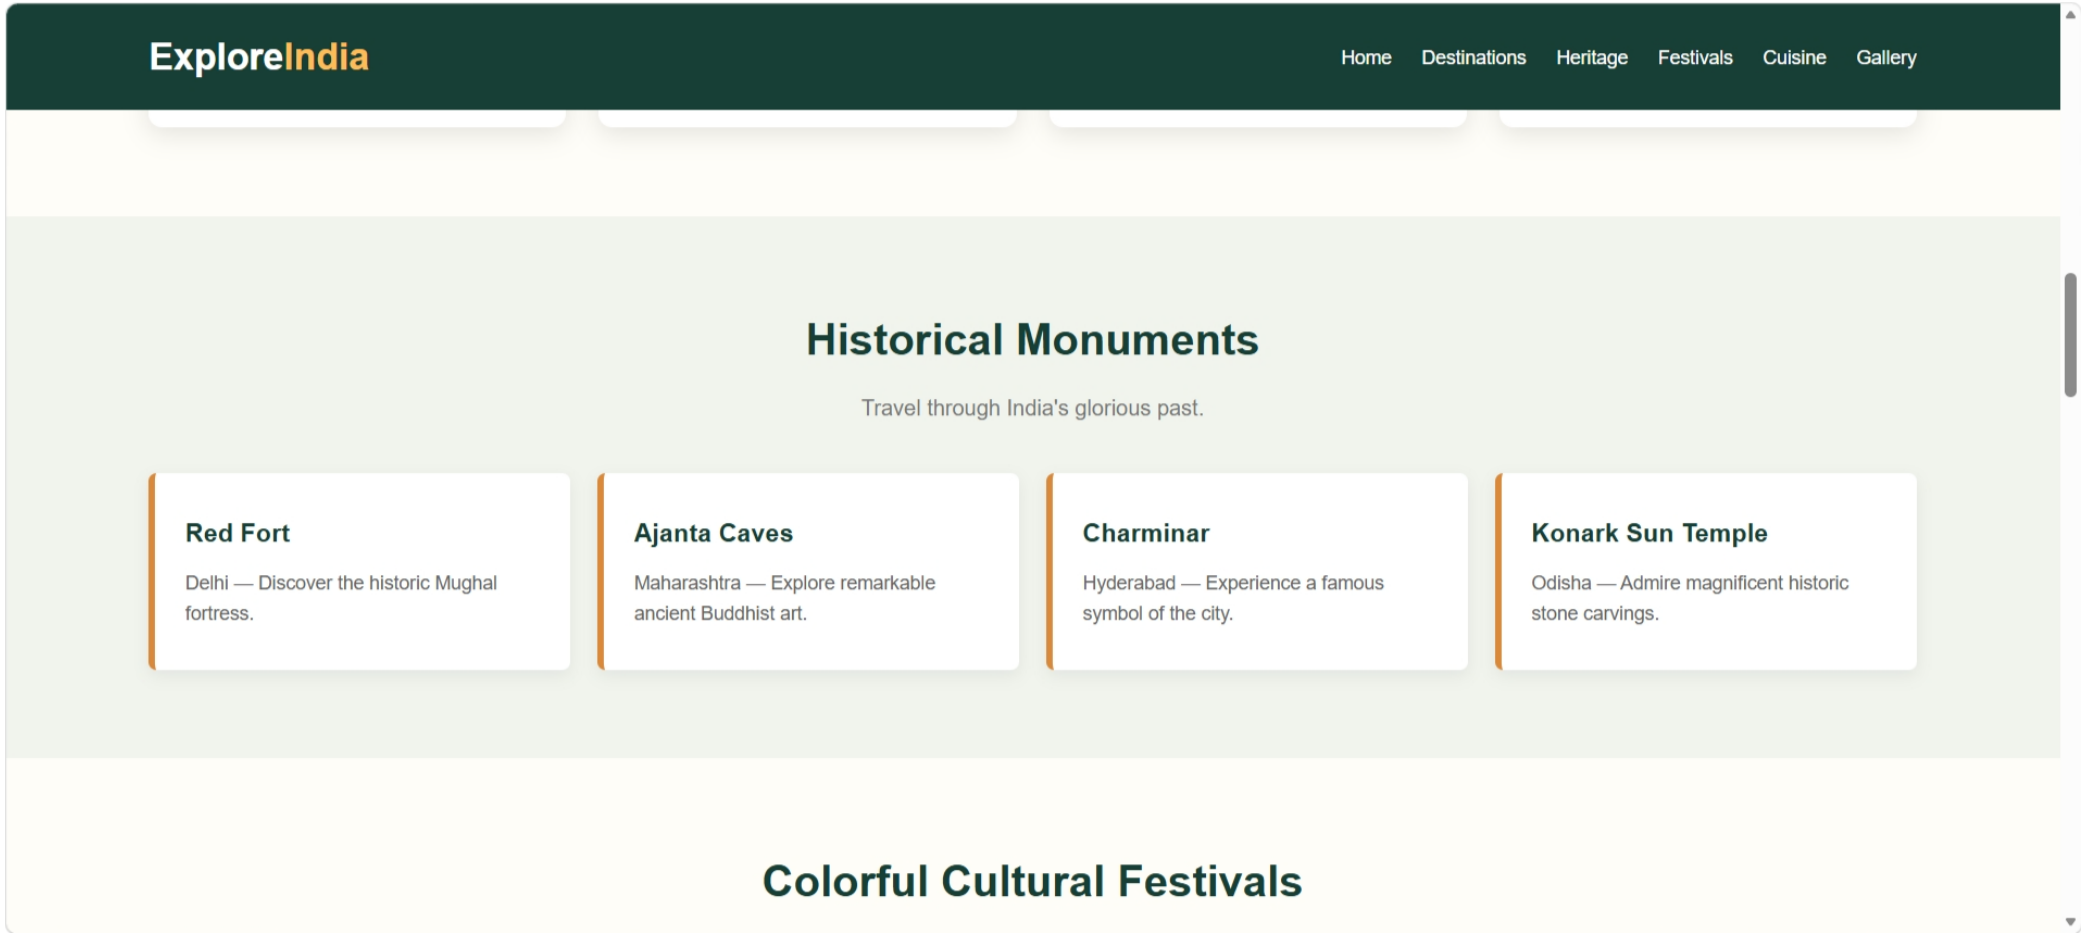

Screenshot 3 — Destination cards and historical monuments

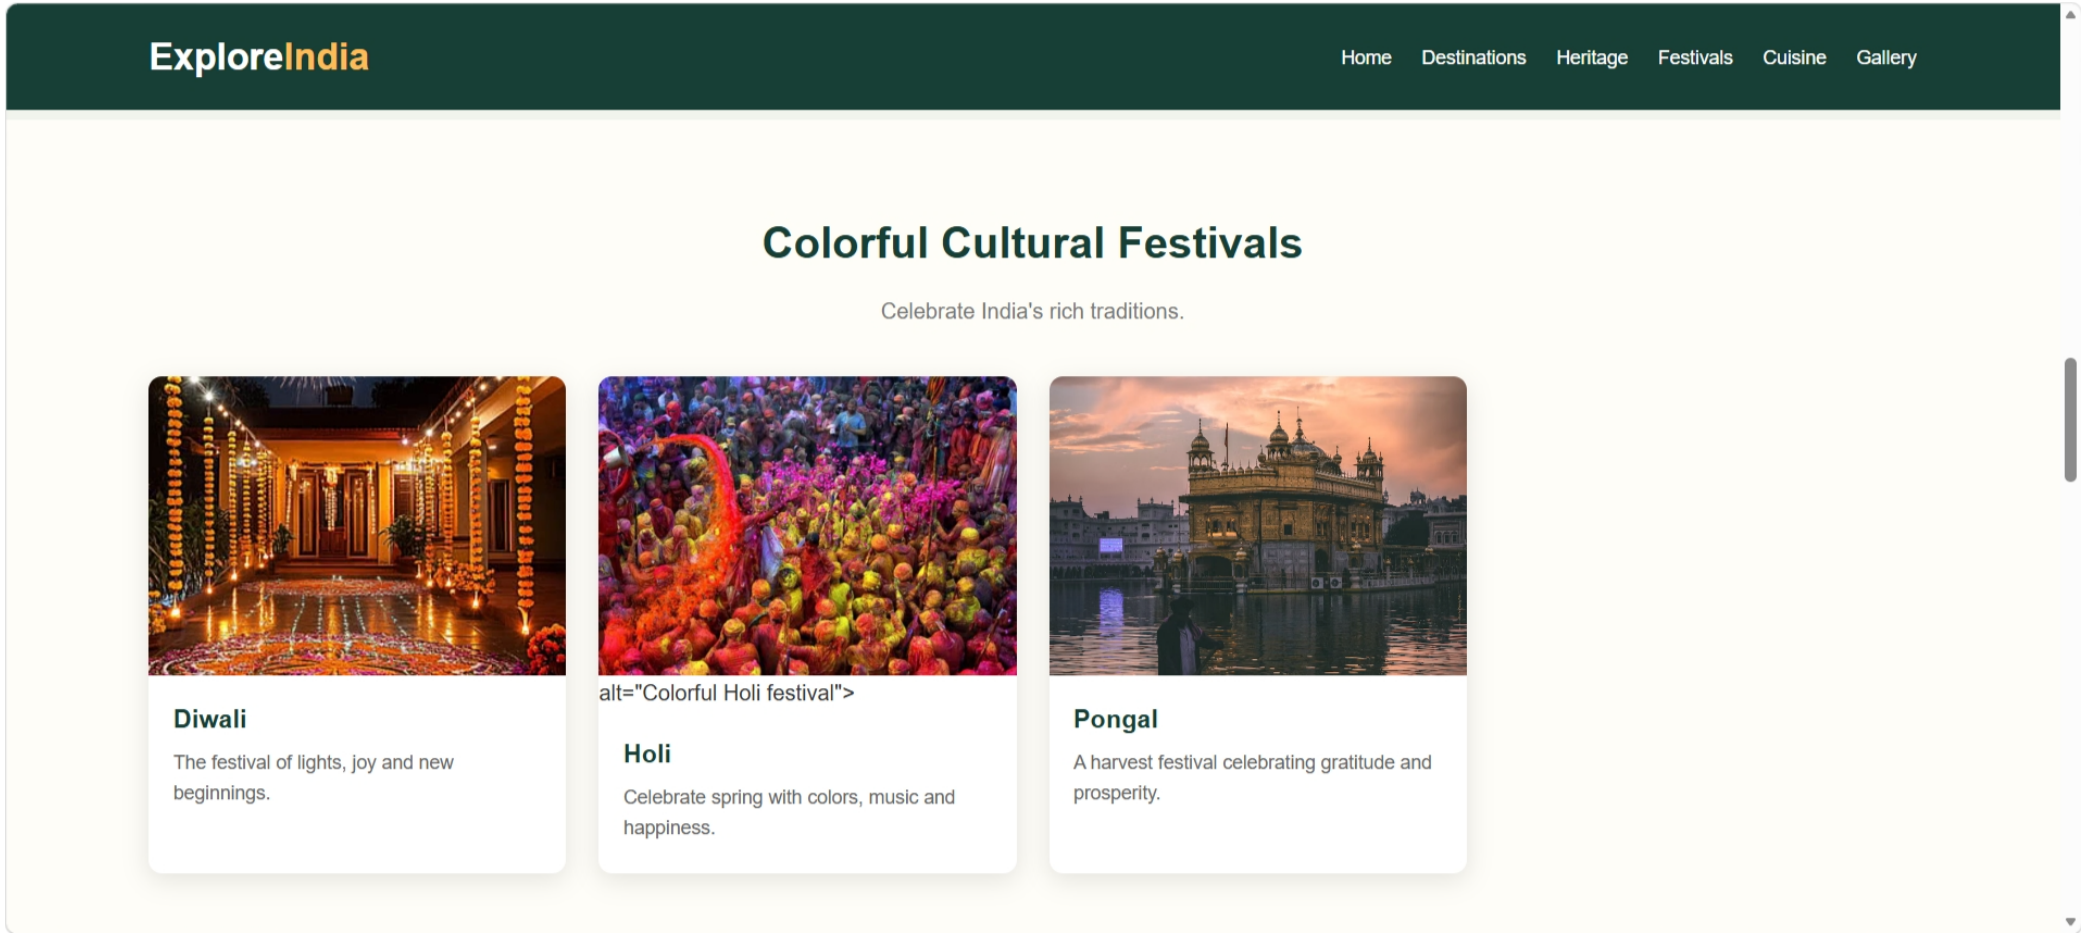

Screenshot 4 — Historical monuments section

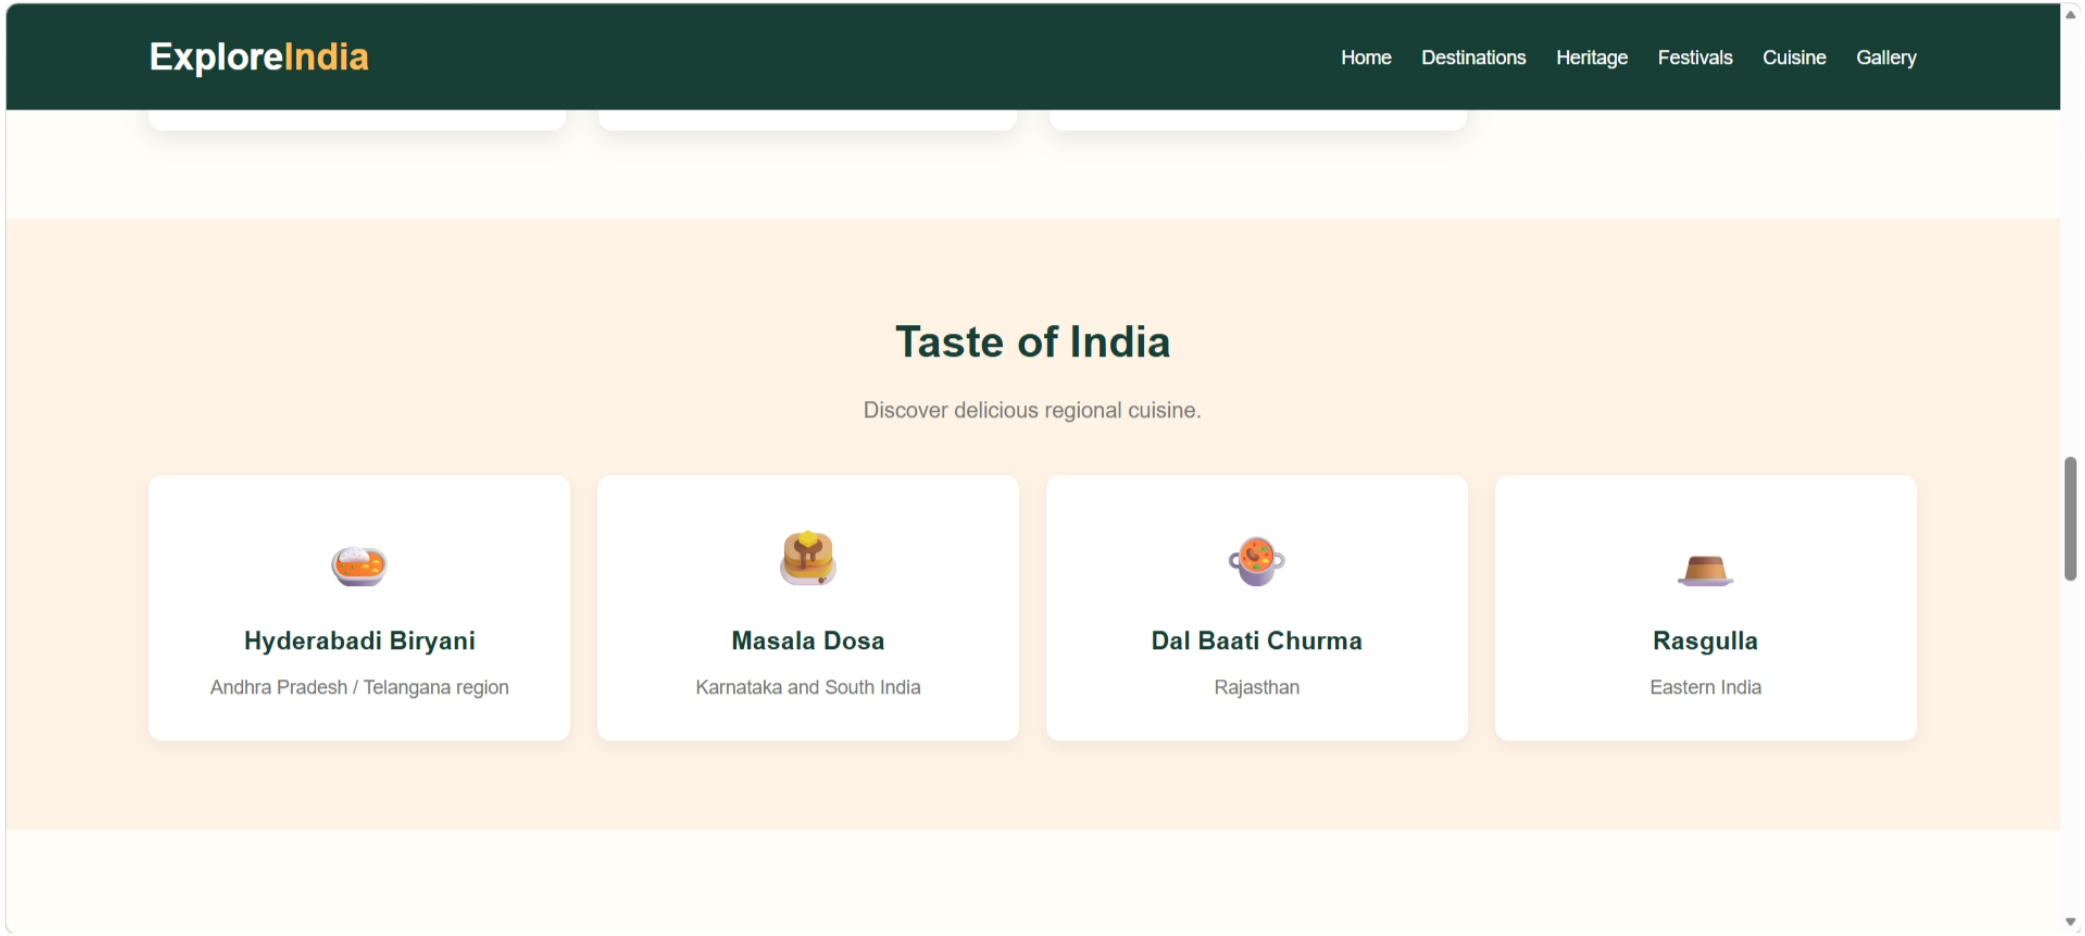

Screenshot 5 — Cultural festivals section

Screenshot 6 — Regional cuisine section

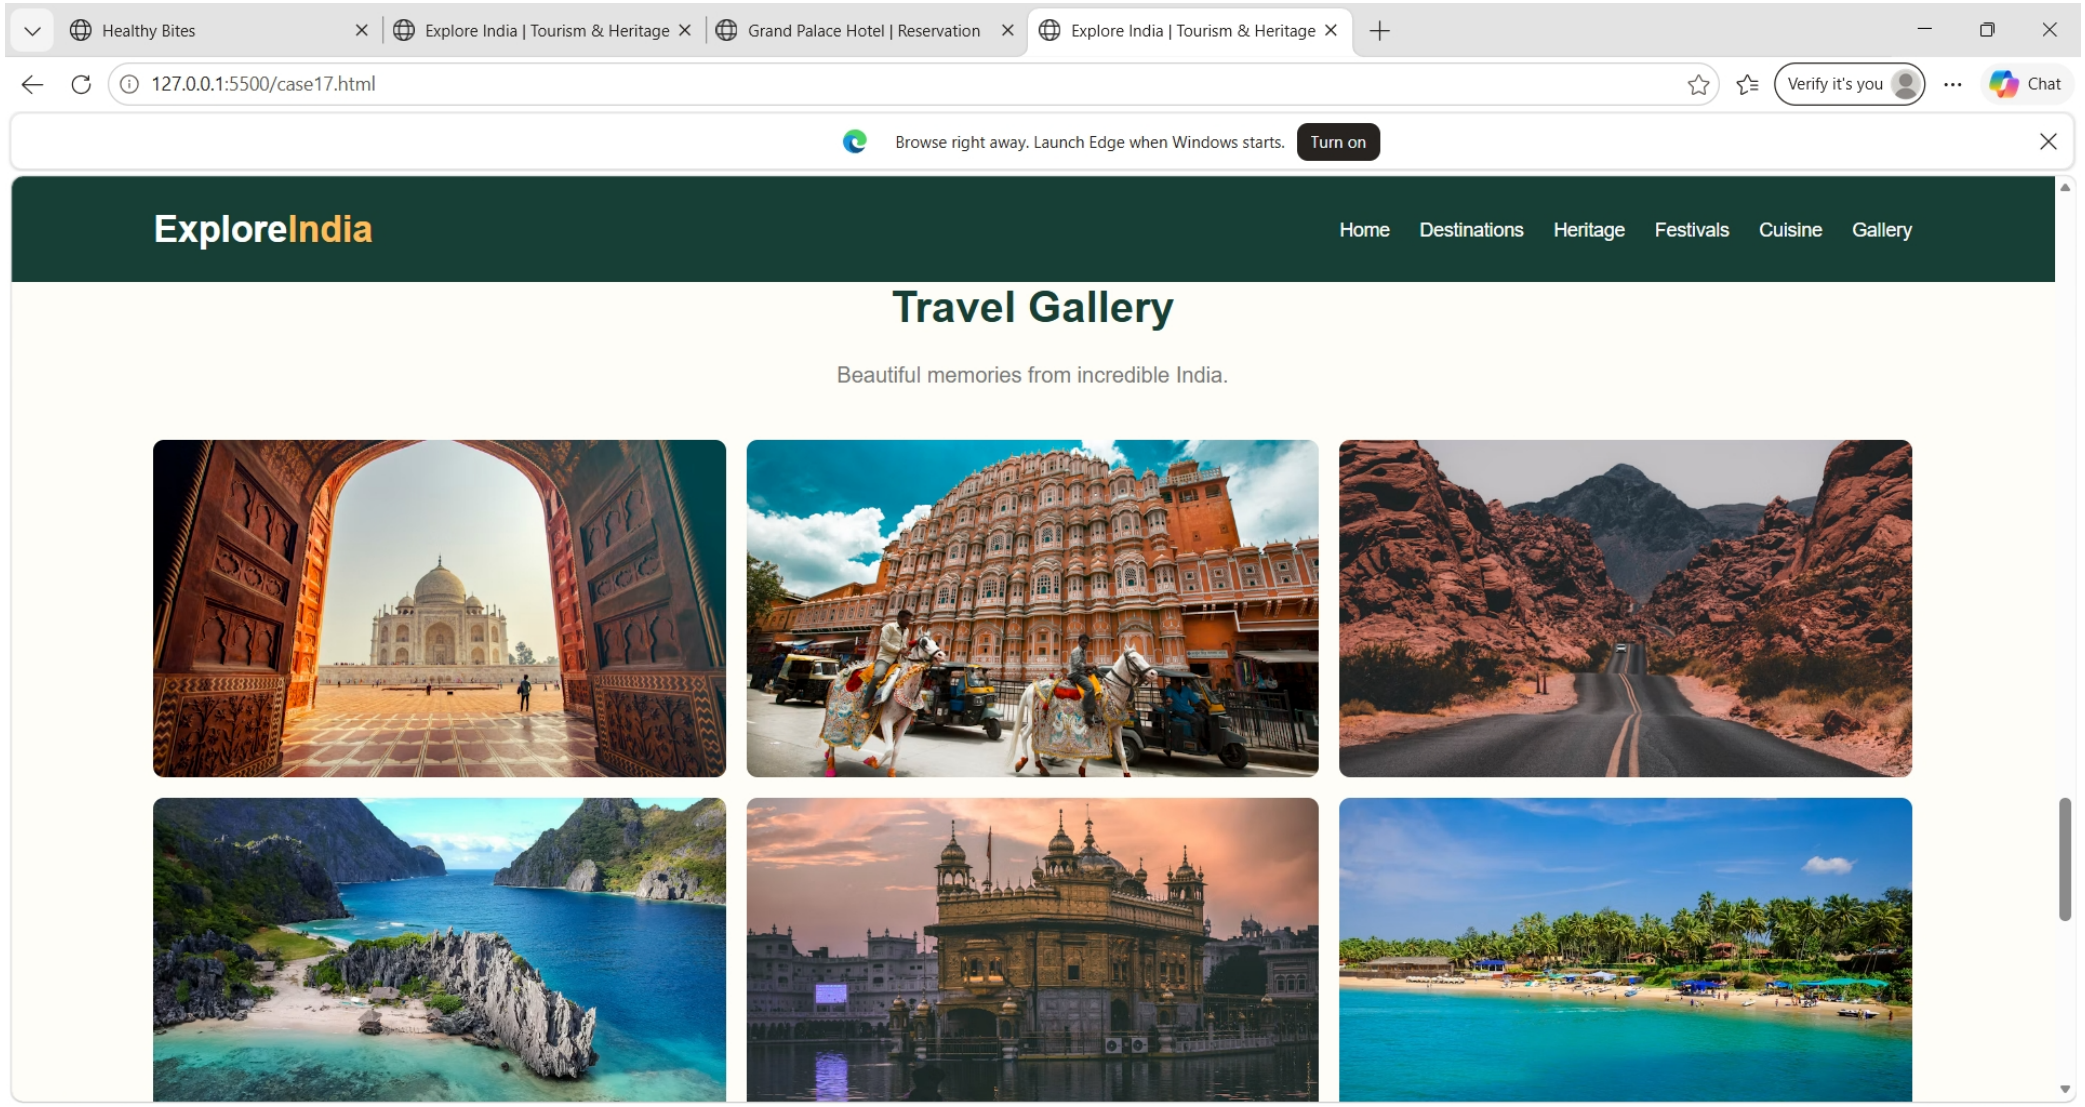

Screenshot 7 — Travel gallery

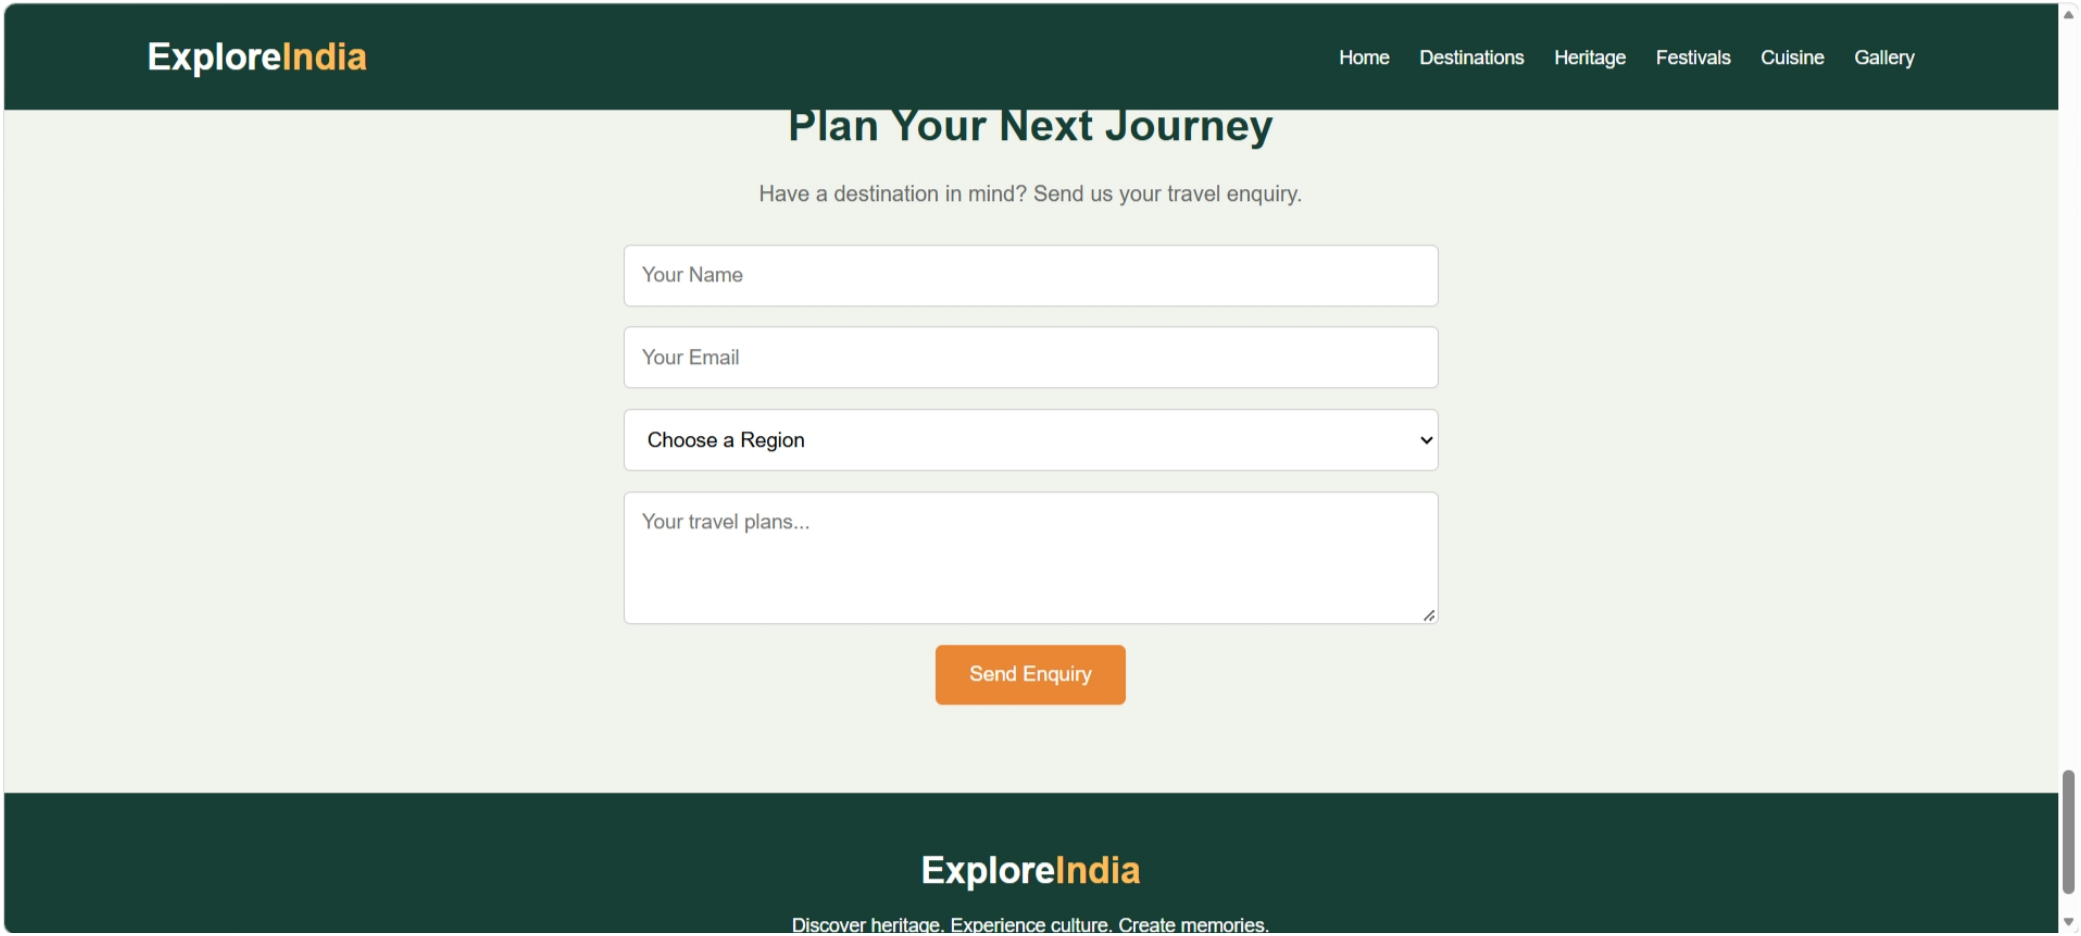

Screenshot 8 — Travel enquiry form and footer

Screenshot 9 — Hotel booking form and footer

Screenshot 10 — Additional website view

Code (Starter Example)

The following HTML/CSS demonstrates the main visual structure shown in the screenshots. Replace the sample text and image paths with your own project content.
